

# Networking promotion program for students and young scientists from international cooperative institutions with Asian Research Center for Bioresource and Environmental Sciences (ARC-BRES)

東京大学  
THE UNIVERSITY OF TOKYO

The prevailing challenges of climate change and the global landscape undeniably exert a profound influence on biological resources, underscoring the crucial need for collaboration, idea exchange, and the conceptualization of sustainable pathways forward. Our international gathering invites students and young researchers, encouraging them to exchange not only research activities but also daily university life experiences and personal interests beyond the campus setting. Facilitated by longstanding academic partnerships, we aim to cultivate meaningful connections that transcend both geographical borders and disciplinary boundaries.

## Date

Wednesday, 28<sup>th</sup> February, 2024

13:30~15:30 (Japan); 10:00~12:00 (India); 11:30~13:30 (Thailand); 12:30~14:30 (China, Malaysia, Philippines)

## Zoom information

Meeting ID: 883 0513 3084

Passcode: 20240228

## Schedule

13:30-13.40 Opening remark (Assoc. Prof. Mariko NORISADA)

13.40-13.50 Introduction of 3 chat rooms:

- I. Current research challenge
- II. University daily life & experience
- III. Language, travel, hobbies, etc.
